The SwordThrust Series

This unique fantasy role-playing system by Donald Brown is unlike any other fantasy game available for the Apple® computer.

With the "SwordThrust" series, you are able to develop a character, give him or her personality, character traits, abilities, skills and power.

That character may then be taken on a series of adventures. Not just on one game disk, but on a whole series of SwordThrust adventures.

Not your typical "hack and slash" adventure game, rather one that will require skill, cunning and a lot of thought.

MISSION ESCAPE!

Imagine chess with a knight carrying a laser blaster and a dozen missiles. It's "Mission Escape" from CE Software. An adrenaline-pumping, hi-res action game by Jim Jacobson. At first, it appears to be another shoot 'em up arcade game. Thinking that way can get you blown to ashes. Simply mowing your captors down with missiles or blaster fire is not the answer. Instead, it will take a combination of quick wits, a quick trigger finger and some clever strategy to make it through the various levels of your Imperial Security Station Prison. Mission Escape is available on disk from your Apple® computer dealer for just \$24.95.

WALL STREET

There are laws of nature, and laws of man, and the stock market is subject to neither.

Wall Street, by Donald Brown is a fast-paced financial strategy game. Your goal is to wreak havoc on the stock market, and come out rich!

In Wall Street, from one to nine players can compete against the computer (acting as the stock market) and against each other! What you and your opponents do has a direct affect on the market behavior. Be careful. Wall Street combines the best aspects of stock trading to make an exciting game of skill and luck. Wall Street, available on disk from your Apple® computer dealer for just \$24.95.

THE KIDNAPPERS COVE

Harvor McBane had once said that "There's nothing more dangerous than friends who have confidence in you." You had never quite understood that before.

The Count of Manchiu had been visiting the castle of your old mentor, Baron Gustav Greenleaf. Unfortunately, the welcoming festivities were spoiled by crime--the count's deathly ill son was kidnapped! Fortunately (for him), the baron knew of a brave soul who could return the boy. The count was uncertain, but when the baron put up half of the rogue's gold as a guarantee, he agreed. The villains have been tracked to a cave in the wilderness. You have been given a sack of gold to use as ransom, and a vial of the drug that can save the boy's life. Time is short, and your gold sack (as well as someone's life) hang in the balance.

Kidnappers Cove is the third adventure in the exciting SwordThrust series. You must have the SwordThrust master diskette to play.
