COMPUTER ACTIVITY TOYS™ BUILDING A CHILD'S IMAGINATION IS NOT A GAME.

Computer Activity Toys allow children to engage in healthy free-form, imaginative play on your home computer. Four to ten-year-olds can play for hours with G.I. Joe®, Hot Wheels™ and Barbie™ without competing, defining goals or learning rules to an educational game. With a Computer Activity Toy, children have the opportunity for open-ended, time-tested free play either alone or with a friend.

And any child will agree: There's nothing else quite like it—playing

with their favorite toys right on the computer, making up their own games and sharing their imaginations with friends. Computer Activity Toys—only from Epyx.

- Based on the Most Popular Toys that Kids Love
- Allows Children to Make Up Their Own Games—Hours of Non-Structured Free Play
- Game Play Limited Only by the Imagination
- Play with the Computer or a Friend

COMPUTER ACTIVITY TOYS AVAILABLE NOW AT YOUR LOCAL EPYX RETAILER
