

AMNESIA

APPLE II+, IIe, IIfx

Getting Started

Insert Side A of the *Amnesia* program disk in the drive 1 and close the drive door. Turn on the computer and monitor, and after a few moments the title screen appears.

Performing Actions

You perform actions in *Amnesia* by typing plain English instructions on the keyboard. For instance, leave a room by typing **Leave**. You can also perform multiple actions by typing sentences such as: **Leave the room and go left then run down the hall and press the elevator button**. Note that **+**, **&**, **and**, and **then**, are all synonyms. Pressing **Control-R** repeats your last action.

Talking to Characters

Sometimes you may need to talk with one or more of the characters in the game. Here are some ways you can address people you meet in the game:

Luke, where is Central Park?

Ask Beth about Joe

Tell Joe about amnesia

Saving and Loading Games

You will need a blank disk in order to save *Amnesia* games in progress. Type **Save Game** to save a game in progress. You will be asked what area of the disk you want to save the game to. You can save a game to any one of three areas on a data disk by typing the number of the area.

To load a previously saved game, reboot the disk and answer "Yes" to the "Load a saved game?" prompt, then enter the area number of the game you want to load. You have the opportunity to load a saved game each time you boot the disk.

Printing a Travelogue

If you would like to document your journeys through the Big Apple, make sure your printer interface card is in **Slot 1**, the printer is online, and type **Turn Printer On**. Everything that appears on your screen from that point on will be printed. Type **Turn Printer Off** to cancel printing.

NOTE: Because *Amnesia* is an all-text adventure game, it will work with many printers and interface cards without difficulty. However, if you experience strange printing results, you may need to adjust the switch settings on your printer and/or interface card. Consult your printer and interface card owner's manual for the switch adjustments that will correct the problem.
